

Operational Excellence Research Seminar

Lean Green; delivering extraordinary results by combining your environmental and business initiatives

An exploration of H-I research findings led by:- Kevan Jones, Director, Corven Consulting

Thursday 6 March 2008, 09:30 – 14:00

Café Royal, London

All indications are that environmental sustainability will rapidly become a necessity for all businesses, yet many organisations, by design or despite their best endeavours, are struggling to realise and/or maintain significant environmental improvements. At this event you will learn how to deliver extraordinary results by combining the best practices and corporate commitment to lean initiatives with the employee enthusiasm and new opportunities to remove waste that accompany green initiatives. Whether you are seeking better Lean or better Green this approach is a winner.

Kevan Jones, who led the research on behalf of H-I, will discuss the results of the project. He will also introduce speakers from the best case studies discovered during our research and facilitate syndicate exercises in which the findings from the research can be applied to real life situations facing seminar participants.

Participating organisations at recent seminars include Shell, Glaxo, EDF Energy, National Grid, BP, HM Revenue and Customs, BA, BOC Linde, BAE Systems, QinetiQ, Standard Chartered, UBS, Ordnance Survey and Unilever.

Forum format

The seminar is designed to be highly interactive, to facilitate thoughtful discussion on individual challenges and opportunities, and to encourage networking amongst participants. H-I Network members can register up to **six** management level attendees.

The seminar commences at 09:30. Lunch will be served at 13:00, during which discussion continues informally.

Location and registration

Café Royal, 68 Regent Street, London, W1B 5EL

Nearest underground stations are Piccadilly, Oxford Circus or Green Park

Please contact Lisa Curteis to reserve your place.
